TRUGOLF e6 Sensor Manual

GREEN FIELD - best in between the Black Dots -> Drives, Irons, Pitches and Chips

Place the Ball best in the Middle of the Black Dots for All Shots, but you can place the ball everywhere in the Green Field. Tracking is best If Ball is in Middle Position
Please use Pyramid Tees or Rubber Tees for Driver and Woods.

BLUE FEILD -> ONLY PUTTEN:

Place the ball exactly on the Single Black Dot behind the First Sensor Row, and take a put over all 3 Sensors.

In no case the Ball or any shadow should cover on sensor row during the swing, otherwise the measurement will either not been shown, or not measured correctly.
